

# NEW MEXICO COUNCIL OF CAR CLUBS

FOUNDED IN 1977 TO REPRESENT THE AUTO HOBBY IN NEW MEXICO

NEWSLETTER FOR JANUARY, 2013

NEXT MEETING TO BE AT OLD CAR GARAGE  
WEDNESDAY, JANUARY 23, 2013, 7:30pm

**MEETING AGENDA:** Linda Hubley from Balloon Fiesta, Web Site Updates, Swap Meet Final Report, 2013 Museum Car Show

The Car Council is a current member of SEMA. Any club may join free. It keeps members updated about proposed legislation that affects the car hobby nationwide. If your club wants to sign up, do it at [www.semasan.com/san/join.aspx](http://www.semasan.com/san/join.aspx). It costs nothing and should be informative. The editor will publish any pertinent information received.

**ATTENTION \* \* LAST CHANCE \* \* LOST AND FOUND \* \* LAST CHANCE \* \* ATTENTION**  
**FOUND: CHAIR LEFT AT CAR SHOW.** If you left a bag chair in the 3<sup>rd</sup> or 4<sup>th</sup> row of the Museum Car Show, call Ron or Su at 293-0581. We think the owner had a yellow 1955 Chevrolet.

**FOUND:** There were 3 serving spoons and a round casserole thermal bag left at the All Clubs Picnic. All 3 spoons are Oneida; two are simple design, labelled "ONEIDA STAINLESS", and one is labelled "DESTINATION DELUXE STAINLESS by Oneida HH" and has a floral design on the handle. All are nice spoons. The thermal bag is labelled "Carry-Outs" and is royal blue in color, about 12" diameter. If you know the owner(s) of any of the above items, please have them call Joyce, 884-7912 or e-mail [joyce@nmcouncil.net](mailto:joyce@nmcouncil.net). If not claimed soon, items will be donated.

**LOST:** Bob Agnew loaned someone a large brown coffee server, and the borrower forgot to return it. It is one of the brown plastic type, about 2' tall, 10" wide and 15" deep. If you know the whereabouts of this server, Bob would appreciate its return.

## SWAP MEET FINAL REPORT

A final report on the Swap Meet will be available at the meeting. Profit was down, due to an increase in expenses. Several of these were one-time expenses, so the expenses for next year should be lower.

## New Mexico Council of Car Clubs Minutes October 24, 2012 Meeting

Our President, **Gary Zimmerman**, called the meeting to order at 7:30 PM and the following club representatives were on hand: **Ron and Su Rymarz-OCCA**, **Gary Zimmerman-Mopar Muscle Club**, **Jeff and Lauri Rector-NM4W**, **Pat and Charles Logan-Cougar Club of NM, OCCA**, **Robert Gold-Corvairs of NM**, **Joyce Clements-OCCA**, **David Pachak-Robie-Saabisti NM**, **Lisa BonDurant-Saabisti NM**, **John Doran-RGMC**, **Chris Padilla-LOE GTOs**, **Jim Clements-Early Ford V-8**, **Gabe Trujillo-OCCA/Bombardiers**, **Paul G. McLaughlin-Mustang Owners Club**.

There were no guests or speakers scheduled for this meeting.

Treasurer's Report-**Ron Rymarz** reports that as of this date we have a positive balance in our checking account.

### Old Business:

501 (c) (3) Status Update-**Lisa BonDurant** reports that the state of New Mexico has approved our application for status change and our next step will be to forward our paperwork to the IRS.

### Show Events Attended:

**Gary Zimmerman** reports that the Santa Ana Casino Car Show attracted 140 entries which was a very good showing for a first event.

**Louie Paul** spoke about his recent visit to the LeMay Car Museum in Washington and that it is a great place to spend some time if you are in that area of Washington. He also had a pile of pictures available for people to see.

**Lauri and Jeff Rector** spoke about the great time that they had at the Pinetop, Arizona meet and show.

### Website Update:

**David Pachak-Robie** reports that we are still seeing a number of car events for posting being submitted to our web site. He also reported that we are still building up our Facebook Account, and we are still getting hackers trying to break into our system, which means that our web site is still a popular venue to visit.

**New Business:**

Swap Meet Preliminary Report- **Joyce Clements** reports that we had another successful swap meet. We took in \$11,425.90 and spent \$5298.00 to put the event on. All the bills haven't been submitted yet so our total cost amount will probably go higher. We sold out of spaces and the only problems we encountered had to do with "port-a-potties" and a park manager who hassled some of our vendors and customers. **Joyce** also reported that we may have to increase our budget for the 2013 swap meet and that she would like to see more volunteers help out during the event. Once again there was a motion on the floor after **Joyce's** presentation that we make a donation to the Village of Los Lunas for the use of their park in the amount of \$1250.00. The motion was seconded, voted on, and approved.

November 12, 2012- The New Mexico Council of Car Clubs Board of Directors and Officers will be meeting to discuss a budget for 2013 and a financial review of 2012.

At the end of the meeting **Bob Agnew** announced that the Old Car Garage will be moving to a new location at 3232 Girard NE in Albuquerque and our next meeting will be held at this new location on January 23, 2013.

At this point the meeting was brought to a close.

**Paul G. McLaughlin**

Secretary

This article was sent to me. It's very interesting and may have some substance. Changes have been made in the gas, oil, antifreeze, AC units, bearing grease, etc. that do not work on older vehicles. Why should we not expect the wear-prone parts to become unavailable in time? It is already impossible to buy new sealed beams that fit my car; I need the ones without the little "bumps" at the outside. - Joyce

**A NEW WAVE OF SHORTAGES** by George Hamlin

(reprinted from The Commander, Newsletter of the Potomac Chapter of Studebaker Drivers Club, Lynda Welsh, Editor)

We're all familiar with the usual shortages and difficult-to-find aspects of this hobby: shiny parts, certain electrical and mechanical things, upholstery that is available only from a notoriously slow source. This is a heads up on some other shortages that are approaching very quietly while your attention is on the shiny stuff.

**SEALED-BEAMS**

Nobody has used the PAR-56 size (the larger ones, pre-quad era) of round sealed beams for some time, had you noticed? Every make seems to have its own design now. That has resulted in the stores' using their limited space for the faster-moving (and higher-margin) new stuff. Six-volt lamps aren't on the shelves at all, available mainly at swap meets - and we're now seeing prices north of \$25 EACH for these things. Start stocking up if you haven't already; there are Websites that have them cheaper, primarily those catering to Volkswagens. And yes, this is starting to apply to the 12-volt lamps too. And eventually, the shortage will work its way up to the PAR-46 size that came in in 1958, so...

**WIPER REFILLS.**

Used to was, you wandered into the parts store, went down the display until you found your length, bought two, zipped them in, and Bob's your uncle. Forget that. Almost overnight, refills in varying lengths disappeared pffffft. That's because of the stylists too; each make has its own unique wipers now, and they're not using the same refills your car used. In their place, on one end of the rack in one lonely display, is a Trico product called "Break-to-Fit Blade Refills." The idea is, it comes in one length, you slip it into the blade, and snap it off. We're here to tell you that this product is unmitigated junk. The universality means that there's no substance to the metal edges; it's too slim to stay in the blade tracks; "breaking" it off will cause the product to disintegrate; and even if you use snips instead, the resulting assembly falls to pieces the instant you activate the wiper. If you can find some refills in the right size, stock up immediately; unfortunately, rubber has a limited shelf life, so we don't know how long you'll be able to use those wipers (get some Rain-X; the stuff really works). We wonder what the new-car owners of today will do in 20 years.

**TIRES.**

Once upon a time, tire shortages almost strangled the old-car hobby in its crib; the hobbyists of the early fifties were using truck tires, old tires, recaps, wrong sizes, anything that would go around. People like Ann

Klein saved that particular bacon, and now we have lots of specialty tires - but not all of them are good tires. The act of desperation, if you're going to stay with first-rate rubber, is modern radials. Those products have a few problems of their own, like limited service life even sitting in the garage, and the gradual fattening of the design; it's getting hard now even to find 75%-section sizes that correspond to what suits the car. Because you can't make your own tires, we don't see this situation getting anything but worse, and the current administration's sudden imposition of a huge tax on Chinese tires has resulted in several radials of good sizes going off the market very quickly (this action was held to be illegal, but the damage is permanent). While you were sleeping, good substitutes have just disappeared; the 185, 195, 205 sizes all went away and suddenly, the only 215-75R15 tires you will find easily are for ATVs or trailers - and they're all BLACKWALL. If you're on the cusp of needing new tires, we'd suggest that you do it now, this week, while the warehouse might still have a set of four available. Oh, and here's a note of cheer: they're probably already four years old, so they probably won't last you to 2020. Happy happy joy joy. What we're really afraid of is those new-look tires, the ones with a very thin tread supported only by rubber-flap spokes. If those become standard, you can even say good-bye to tire shops.

**REFRIGERANT.**

You already know about Freon's disappearance, of course, because it took several years. Now the good substitutes, like Freeze 12, have also been forced off the market. Without getting too deeply into the politics of this largely symbolic act, the fact remains that the only refrigerant you'll be able to find is R-134, which will leak out of your old system quite rapidly; in the end, you may decide to let the system go and just have it in the car for looks.

**FUSES.**

Those familiar cartridge-type fuses found all over your car are no longer used. A recent visit to a NAPA store to buy a simple 15-amp fuse resulted in a 15-minute search through the archival bins. Find all the fuses used in your car (they're listed in the owner's manual) and lay several of them aside while it's relatively easy.

**LITTLE LIGHTS.**

Do any new cars use any of the familiar small lamps you're used to, and which number dozens in your collector car? 57, 67, 1034, 1157, all those familiar lamps? Every lamp we see in new cars is a different (newer) design. Same recommendation as with fuses: your owner's manual lists every one in the car, so stock up. . . Won't cost you too much.

### **BREAKFAST AT RICH FORD**

Almost any Saturday morning from 8:00 on, various car guys and gals meet at Rich Ford on Wyoming and Lomas in Albuquerque, to have breakfast in the Mustang Café there. The Rio Grande Mustang Club, the Model A Club, the Model T guys, and the Ford V8 Club meet there from time to time but not on a weekly basis. A bunch of car guys, Ford and Chevy fans, meet there every week for breakfast on Saturdays. It is an impromptu group that shares stories and pokes fun at each other. Anyone is welcome, if they want to have some fun and don't mind being kidded about their choice of vehicles. Paul McLaughlin at [pmacautoart@msn.com](mailto:pmacautoart@msn.com) is a regular attendee, if you have questions.
